PROFESSIONAL SUMMARY

Data Science professional with experience in **Python, SQL, Machine Learning, Power BI** and **Generative AI**. Experienced in delivering technical training and building AI applications using **LLMs, Docker** and REST APIs.

TECHNICAL SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, EDA, Data Cleaning, Feature Engineering

Machine Learning: Scikit-learn, Regression, Classification, Clustering

Generative AI : LLMs, Prompt Engineering

Visualization: Power BI, Tableau, Matplotlib, Seaborn

Cloud & DevOps: Docker (Basic), Cloud (Basic), REST APIs, Git, GitHub

Tools: VS Code, Google Colab, Jupyter Notebook

PROFESSIONAL EXPERIENCE

Data Science Trainer

Feb 2026 – Present

Skillested JSSAV Education Pvt. Ltd., Pune

- Delivered **100+** instructor-led sessions on **Python, SQL, Data Analysis, Machine Learning, Power BI** and Generative AI.
- Mentored **500+** students through hands-on projects, EDA, dashboard development and predictive modeling.
- Designed practical assignments, coding assessments and mock interviews to improve students' job readiness.

Data Analyst Trainer

Jun 2025 – Dec 2025

Defence Guru Cyber Education, Pune

- Trained **500+** students in **Python, SQL, Excel, Power BI** and Data Analysis.
- Conducted project-based learning using real-world datasets and visualization techniques.
- Created coding assignments and interview-focused practice material.

Data Operations Associate (Client: Cipla Ltd.)

Mar 2023 – Aug 2024

Nandini Enterprises, Kurkumb

- Managed and validated **10K+** production records while maintaining high data accuracy.
- Performed data validation, quality checks and generated Excel-based operational reports.
- Collaborated with cross-functional teams to ensure accurate business reporting.

PROJECTS

• Prompt Shield – AI Security Framework

- Developed an AI security framework to detect **Prompt Injection** and **Jailbreak Attacks** in **LLM** applications.
- Implemented **Prompt Validation**, ML-based request filtering, **Docker** deployment and REST APIs for secure AI interactions.
- Built dashboards to monitor AI requests and improve application security.

• Cloud FinOps AI Assistant (RAG + Multi-LLM)

- Built a **RAG**-based AI assistant integrating **4 LLM APIs** for enterprise cloud cost optimization.
- Reduced **token consumption** through prompt optimization, lowering unnecessary API usage and costs.
- Leveraged **Machine Learning, LLMs** and **Docker** to improve cloud efficiency and business decision-making.

EDUCATION

Bachelor of Business Administration (Computer Applications)

2022 – 2025

E.S. Divekar College, Pune University

CGPA: **6.83**

Higher Secondary Certificate (PCMB)

2021 – 2022

Percentage: **62.37%**

ACHIEVEMENTS

- Delivered **100+** technical sessions and mentored **500+** students.
- Built AI applications using **RAG, LLMs, Docker** and REST APIs.
- Developed project-based assignments and interview preparation material.

CERTIFICATIONS

- Data Science Certification
- Python Programming
- SQL for Data Analytics
- Microsoft Power BI
- Machine Learning Fundamentals
- Generative AI Fundamentals

ADDITIONAL INFORMATION

Languages: English, Hindi, Marathi

Availability: Immediate Joining

Interests: Data Science, Machine Learning, Generative AI, Business Analytics
